

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest has an immediate opening for a **Control Room Operator** reporting to the Shift Lead. This is will be either a staff or contract, full time position located at the BlackGold SAGD Facility near Conklin, AB. The successful candidate will reside in a camp facility on a rotational basis.

#### **Key Responsibilities:**

- Fill the role of Assistant Shift Engineer as per the Power Engineers Regulation of the Safety Codes Act.
- Ensure all process equipment and processes are operated in accordance with control limits and set points.
- Follow procedures and standards pertaining to SAGD operations.
- Ensure compliance with ABSA, AER, OH&S requirements, report any contraventions.
- Actively control and manage processes in the facility during plant upsets.
- Troubleshoot process performance issues.
- Maintain all required safety certification.
- Committed to best practices in health, safety and environmental management.

#### **Qualifications**

- Valid 3<sup>rd</sup> Class Power Engineering Certificate of Competency, preference will be given to candidates that possess their 2<sup>st</sup> Class.
- Valid Class 5 Operator's License or equivalent.
- A Degree or Diploma in a related program such as Power Engineering, Mechanical, Petroleum, or Chemical is an asset.
- Minimum 5 years control room operations experience with a Distributed Control System (DCS)
- Experienced in SAGD well start up and operation.
- A solid understanding of processes and equipment used in the SAGD process including water-tube boilers, high pH mechanical vapor compressor evaporators, produced emulsion processing, diluent recovery, tank vapor recovery compression, tank inventory management, and produced water de-oiling.
- SAGD or other commissioning and start-up experience is an asset.
- Ability to read and interpret facility drawings.
- Self-motivated with a strong work ethic, good communication skills, and a positive attitude.
- Proficient with personal computers, software applications, and facility control systems.

Harvest Operations Corp. provides competitive compensation and a comprehensive benefit package including both short term and long term incentive plans. Please visit Harvest's website at [www.harvestoperations.com](http://www.harvestoperations.com) to learn more about our company.
