

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest has an immediate full time opening for a Corporate Health and Safety Advisor reporting to the Manager, EH&S. This position will be based in the Calgary head office.

**Key Responsibilities:**

- Analyze and interpret data from incidents and leading & lagging indicators to assist in implementation of corrective and preventive measures;
- Prepare performance reports to various functional groups and committees to communicate EH&S results to internal partners;
- Support ongoing actions to maintain a COR and prepare for COR audits;
- Review, update and develop documents for the Environmental Health & Safety Management System in order to keep the system current and in compliance;
- Responsible for the Harvest incident management and contractor management systems;
- Corporate support of health and safety activities in order to ensure compliance with the applicable laws, regulations, standards and company requirements;
- Foster and promote a proactive health and safety mindset towards employees through communication, involvement and participation in health and safety activities
- Responsible for distribution and communication of safety and regulatory alerts;
- Participate in incident investigation, reporting and follow-up in accordance with incident reporting protocols;
- Responsible for new hire safety orientations for Harvest employees and contractors;
- Support of the Harvest Joint Worksite Health & Safety Committee

**Qualifications:**

- A degree or certification in Occupational Health & Safety, Business Analyst or other areas of relevance
- A minimum of three years of health & safety experience in the energy industry
- Technical and interpersonal skills to identify EH&S issues and communicate corrective and preventative actions through the involvement of management
- Excellent knowledge of applicable health and safety legislation requirements
- Safety Professional accreditations (CRSP, CHSC, CIH, etc.) is an asset
- Business Analyst or Business Management experience
- Available for occasional business/field trips
- Proficient use of Microsoft Office Suite applications such as Outlook, Word, Excel and PowerPoint
