

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest has an immediate opening for a **Process Operator** reporting to the Shift Lead. This will be either a staff or contract, full time position located at the BlackGold SAGD Facility near Conklin, AB. The successful candidate will reside in a camp facility on a rotational basis.

Key Responsibilities:

- Support the health safety and environmental goals of the project.
- Follow procedures and standards pertaining to SAGD operations.
- Monitor equipment performance, take corrective action, and initiate work requests for area of responsibility.
- Authorize safe work permits for area of responsibility.
- Develop operational safe work procedures and perform equipment Lock Out/Tag Outs.
- Troubleshoot equipment and process performance issues.
- Operate small machinery including; fork-lift, man-lift, skid steer, and off-road vehicles.
- Maintain all required safety certification.
- Committed to best practices in health, safety and environmental management.

Qualifications

- Valid 4th Class Power Engineering Certificate of Competency, preference will be given to candidates that possess their 3rd Class.
- Valid Class 5 Operator's License or equivalent.
- A Diploma in a related Technology program such as Power Engineering, Petroleum, Chemical, or a Heavy Oil Operations Technician Certificate program is an asset.
- Minimum 3 years operations experience with a good understanding of produced emulsion processing, diluent recovery, tank vapor recovery compression, tank inventory management, and produced water de-oiling.
- SAGD or other commissioning and start-up experience is an asset.
- Ability to read and interpret facility drawings.
- Self-motivated with a strong work ethic, good communication skills, and a positive attitude.
- Proficient with personal computers, software applications, and facility control systems.

Harvest Operations Corp. provides competitive compensation and a comprehensive benefit package including both short term and long term incentive plans. Please visit Harvest's website at www.harvestoperations.com to learn more about our company.
