

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest has an immediate opening for a **Shift Lead** reporting to the Shift Lead. This is a full time position located at the BlackGold SAGD Facility near Conklin, AB. The successful candidate will reside in a camp facility on a rotational basis.

Key Responsibilities:

- Fill the role of **Shift Engineer**, as per the Power Engineers Regulation of the Safety Codes Act.
- Supervise, lead, and mentor a team of Control Room and Unit Operators during operation of the facility.
- Ensure all process equipment are operated in accordance with control limits and set points.
- Ensure compliance with ABSA, AER, OH&S requirements, and report any contraventions.
- Assume the role of On-Scene Incident Commander in an emergency situation.
- Provide operational input into the work flow planning process.
- Participate in employee performance reviews and staff development.
- Ensure operating crew's compliance with required safety certification.

Qualifications

- Valid 2nd Class Power Engineering Certificate of Competency, preference will be given to candidates that possess their 1st Class.
- Valid Class 5 Operator's License or equivalent.
- A Degree or Diploma in a related program such as Power Engineering, Mechanical, Petroleum, or Chemical is an asset.
- Minimum 10 years of industrial facility operations and 5 years supervisory experience, SAGD experience an asset.
- SAGD or other commissioning and start-up experience is an asset.
- Ability to read and interpret facility drawings.
- Self-motivated with a strong work ethic, good communication skills, and a positive attitude.
- Proficient with personal computers, software applications, and facility control systems.

Harvest Operations Corp. provides competitive compensation and a comprehensive benefit package including both short term and long term incentive plans. Please visit Harvest's website at www.harvestoperations.com to learn more about our company.
