

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest has an immediate opening for a **Senior Geologist**, reporting to the Asset Team Lead, SAGD. This is a permanent position based out of Calgary.

#### **Key Responsibilities:**

- Responsible for all geoscience work on assigned assets (geological mapping, cross-section construction, open-hole log analysis and reserve calculations).
- Utilize SAGD production data (recovery, temperature, pressure) and 4D seismic to refine geological interpretation and mapping; use it as a basis for working with production engineers on reservoir optimization strategies (steam splitters, inflow control devices).
- Provide recommendations on potential drilling or completion opportunities, including support during D&C operations.
- Contribute to the management of Harvest's PNG holdings, including expiry notices, offset notices, abandonment notices, independent operations notices, and continuation applications.
- Contribute to multi-functional efforts such as abandonments, reactivations, and recompletions.
- Collaboration with engineering and land personnel.
- Periodic report preparation including statistical analysis, geological assessment, and project summaries.
- Supervision of operational activities including well-site geologists.
- Efficient management of capital costs and project schedules.
- Provide senior mentorship to all the geoscience staff (Harvest & KNOC).
- Manage Geological and Geophysical data storage (United Datawyse, Iron Mountain).
- Contribute to geotechnical software license renewal and justification (Petrel, Kingdom, Seisware, Geoscout, Seisinfo).
- Responsible Member for Geoscience under Harvest's APEGA PPMP.

#### **Qualifications:**

- Minimum of a BSc. In Geology with 10+ years of relevant experience.
- Member of APEGA.
- High ethical and work standards.
- Field and/or operating G&G experience is an asset.
- Strong data analytics and/or data management skills are an asset.
- Creative thinking approach for finding solutions to best optimize Production/Reservoir strategies.
- Commitment to responsible development & technical excellence, demonstrated through HSE performance, innovation, and continuous improvement.
