

Harvest Operations Corp. is a diverse energy company, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets.

Harvest has a full-time permanent position available for an **Environmental & Regulatory Advisor**, reporting to the Manager of Health, Safety and Environment, based out of Calgary.

Key Responsibilities:

- Coordination of the Reclamation program to reduce corporate risk and liability; including a working knowledge of the Alberta ABC and British Columbia CLMP programs,
- Spill response & remediation and historical spill remediation project requirements,
- Support Operations and other functional groups with regulatory matters, including EPEA Approval, air emission, watershed and wildlife management,
- Ensure Harvest is compliant with environmental & regulatory legislative and corporate metrics by liaising with regulatory bodies and industry contacts & associations,
- Provide support as an environmental & regulatory subject matter expert to all Harvest business units, assisting with awareness and adoption of relevant regulatory, legislative and corporate requirements,
- Responsible for review and submission of reporting to regulatory agencies and associated parties,
- Provide planning, cost control and budget management on all projects,
- Provide periodic support towards Acquisition & Divestment programs,
- Promote and ensure adherence to the Harvest Environmental Health & Safety Management System
- Conduct field tours, site inspections and provide training sessions, as required.

Qualifications:

- A minimum 5 years environmental and regulatory experience in the Oil & Gas industry,
- Bachelor's Degree in Environmental Sciences or a related program,
- Extensive knowledge of environmental and regulatory regulations, guidelines, standards and best industry practices,
- Excellent communication, organizational and analytical skills,
- Proven ability to accurately manage multiple priorities and ongoing projects with the ability to prioritize and ensure attention to detail,
- Proficient with use of Microsoft Office applications and other software as applicable,
- A valid class 5 driver's license and ability to travel, as required, to all Harvest operational areas
