

Harvest Operations Corp. is a diverse energy company based out of Calgary offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets.

Harvest has an immediate opening for a **Contract Operator** reporting to the Lead Operator. This is a full time contract position based out of Hay River Camp, shift 15 on / 13 off, flights based out Edmonton.

Key Responsibilities:

- Ensure field operations follow health, safety and environmental policies and procedures.
- Perform day-to-day production related activities for area and properties, well testing to verify proration and meet regulatory requirements, optimize wells/facilities to increase production and/or reduce downtime. Coordinate day-to-day operation and upkeep of facilities, roads and pipelines by monitoring key indicators. Modify daily route based on downtime, production and risk factors.
- Ensure accurate and timely capture of field costs and participate in operating cost reduction initiatives.
- Identify field maintenance needs with the Lead Operator; assist in the development of preventative maintenance plans, procedures and schedules. Provide input on downhole repairs, work- overs and facility upgrades.
- Input key field data into production reporting system in line with operational requirements.
- Maintenance of rotational equipment.
- Inventory management of Chemical and other key winter supply based products to maintain efficiency during no access conditions during summer months.

Qualifications:

- Preferences to individuals with current 4th or 3rd Class Steam Ticket, industry accredited Gas Processing courses, Technical diploma or journeyman certificate in a related discipline
- Valid Class 5 driver's license;
- Minimum of 3 years of operating experience with dehydration and refrigeration equipment, compression, high pressure produced water disposal systems, oil separation facilities, artificial lift systems including ESP's and jet pumps.
- Self-motivated with a strong work ethic.
- Positive team player that can work in a remote area and lodge in camp.
- Safety conscious at all times.
- ATV , UTV and Sled experience a must, full time ATV access conditions range from April 01 – Dec 01 due to no Truck access during unfrozen conditions.
- Working knowledge of MS Office; knowledge of SCADA based control systems, Roughneck and PVR would be an asset.
- Required to maintain all safety and regulatory courses First Aid, H2S, WHMIS, TDG, Confined Space, Ground Disturbance and ATV training.
