

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil, natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest is seeking experienced and motivated individuals to join our Operations Team as 3rd class Process Operators. These are full time permanent positions, reporting to the shift Lead and located at the BlackGold SAGD Facility near Conklin, AB.

This is a safety sensitive position: and will be subject to post offer condition testing . The successful candidate will reside in a camp facility on a 7x7 rotation, 12 hours per day..

Key Responsibilities:

Participate as a key member in the operation of a SAGD facility, including:

- Support the health safety and environmental goals of the project.
- Follow procedures and standards pertaining to SAGD operations.
- Adhere to and support the refinement of operating procedures and practices.
- Monitor equipment performance, take corrective action, and initiate work requests for area of responsibility.
- Authorize safe work permits for area of responsibility.
- Develop operational safe work procedures and perform equipment Lock Out/Tag Outs.
- Troubleshoot equipment and process performance issues.
- Participate in and support turnaround activities.
- Maintain all required safety certification.
- Committed to best practices in health, safety and environmental management.

Qualifications

- Must have valid 3rd Class Power Engineering Certificate and experience in a SAGD, heavy oil or petrochemical facility.
- 5 years' experience in an operating facility.
- Ability to read and interpret technical drawings.
- Self-motivated with the ability to work effectively in a team environment, by utilizing strong work ethic, good communication and organizational skills, and a positive attitude.
- Proficient with personal computers, software applications, and facility control systems.
